Professional Summary

Motivated junior frontend developer with additional interest in backend development and cybersecurity. I enjoy solving logical challenges, learning tools deeply, and contributing to meaningful projects. Experienced in building responsive web applications using React, Next.js, and Tailwind CSS. I thrive in team environments, value clean and maintainable code, and constantly seek opportunities to grow both technically and personally.

Education

Software Engineering

Tajik Technical University after named M.S. Osimi

Sep 2022 - Present

Studying at the Faculty of Digital Technologies, Systems, and Information Security, specializing in Automated Control Systems.

Web Development Program

Softclub Academy

Sep 2024 - May 2025

Completed intensive training at Softclub Academy, focused on modern frontend development. The program covered JavaScript (ES6+), React, Git, and teamwork-based project development. Gained practical experience building responsive web applications and collaborating in a development workflow similar to real-world industry practices. Upon graduation, I received a certificate.
